

Status Report
on the
Fairfax County Board of Supervisors’
Four-Year Transportation Program
And Other Selected Projects
FY 2005 Through FY 2008

Prepared by:
Department of Transportation
Capital Projects and Operations Division

June 2006

June 2006 Status Report on the Board's Four-Year Transportation Plan for FY2005 Through FY2008

Summary of Highlights and Significant Changes
Since the March 2006 Status Report (Presented to the Board on March 27, 2006)

Capital Program

- Eleven projects have begun the construction phase since the March 2006 report, with advertisement of construction bids being authorized or receipt of construction bids: Lee Highway Trail under I-66 Bridge, Baron Cameron Avenue at Reston Parkway, West Ox Road from Penderbrook Drive to Ox Trail, Rolling Road at Hillside Road/Forrester Ave., Gallows Road at Idylwood Road, Old Centreville Road Trail, Poplar Tree Road, Fox Mill Road at Reston Parkway, North Shore Drive from Temporary Road to Sycamore Valley Drive, Burke Centre VRE Parking Expansion, and Tysons Priority Access Improvements Site 8.
- Land acquisition was completed on three projects: West Ox Road from Penderbrook Drive to Ox Trail, Guinea Road at Falmead Road, and Stone Road from Route 29 to Awbrey Patent Drive.
- Four projects have been completed since the March 2006 Report: Route 123 from the North Bridge Approach to 0.33 km North of Davis Drive, Reston Parkway at Sunrise Valley Drive, Braddock Road at Ravensworth Road, and Clifton Road from Route 29 to Braddock Road.
- Construction of the Route 50/Waples Mill Road project is 55% complete.
- The design for the Burke Center VRE Station garage is complete. Bid advertisement is scheduled for June 26, 2006.

June 2006 Status Report on the Board's Four-Year Transportation Plan for FY2005 Through FY2008

Summary of Highlights and Significant Changes
Since the March 2006 Status Report (Presented to the Board on March 27, 2006)

Non-Capital Improvement Strategies

- **Pedestrian Access and Safety** - The 2006 regional "Street Smart" pedestrian safety awareness campaign was conducted during April and May, with local-match funding provided by Fairfax County. As part of this effort, the Police Department conducted targeted enforcement in areas with high numbers of pedestrians such as Route 1, Lee Highway and Arlington Boulevard, and the Department of Transportation installed Street Smart safety posters in County-owned bus shelters. Also in May, as a presenter at the 8th Annual Virginia Bike Walk Conference in Lynchburg, Virginia, the FCDOT Pedestrian Program Manager shared Fairfax County's success and strategies for improving pedestrian safety with a statewide audience.
- **Expedited Project Delivery** – As part of the Route 28 Public Private Transportation Act (PPTA) Project, the Route 28/McLearen Road interchange was opened to traffic on May 3, 2006. Work is proceeding for this project on the conceptual plans for the Route 28/Willard Road and Route 28/Frying Pan Road interchanges. VDOT and County staff continue to evaluate options for use of PPTA, design-build, on-call consultants and contractors, and other options to fast-track projects.
- **Context Sensitive Solutions** – Staff has been coordinating with VDOT and DRPT staff to reach agreement on context sensitive design solutions related to the Dulles Rail project, including the Route 7 and Route 123 cross section, pedestrian elements, streetscape, and other features. Staff has attended several training sessions related to context sensitive design solutions, including the American Planning Association meeting in Virginia Beach.
- **Traffic Signalization/Intersection Improvements** - Following concerns about blocking intersections in Tysons Corner, VDOT has agreed to the County's request to install 'Do Not Block Intersection' signs at six new locations: Route 7 at Tyco Road; Route 7 at Westpark/Gosnell Road; Route 7 at State Route 123; Route 7 at Gallows Road/International Drive; Route 7 at Lisle Avenue; and Route 123 at International Drive. VDOT is proceeding with the installation of countdown pedestrian signals. They have outfitted six intersections with the countdown devices, and are proceeding with a program to install two intersections per day. The pilot program for flashing traffic signals at night continues with three locations under flash along Route 123 between midnight and 5 a.m. VDOT is completing collecting data covering the last two years of flash at night operation and will be evaluating the program with recommendations expected in fall of this year.
- **Telework** – The Fairfax County government telework program has met its goal to have 20 percent of the eligible workforce teleworking by 2005. For Fairfax County, that goal meant having 1,000 employees teleworking by the end of 2005. The Fairfax County Employer Services (ESP) and Community Residential Services program continue to partner with major employers, developers and multi-family complexes in promoting and encouraging alternative commute options. The Dulles Area Transportation Association (DATA), a contractor for the ESP for outreach in the Dulles Corridor, has focused primarily on telework outreach breakfasts. ESP also has an ongoing relationship with the Commuter Connections telework program manager to organize meetings with interested employers.
